

Kesavan G

gkesavan446@gmail.com | +91 96263 29399 | Chennai, India

EDUCATION

Annamalai University

Master of Business Administration
2020 - 2022 | Tamil Nadu, India

C. Abdul Hakeem College

B.Sc. Computer Science
2016 - 2019 | Tamil Nadu, India

CERTIFICATIONS

Full Stack Development

GUVI, IIT Madras Research Park

Web Development

Udemy

TECHNICAL SKILLS

Frontend

JavaScript (ES6+), React, React Router, Hooks, Tailwind CSS, Bootstrap, Material UI, HTML5, CSS3, Vite

JavaScript & React

Async/await, promises, event loop, closures, state/effect lifecycle, memoization

Backend

Node.js, Express.js, REST APIs, JWT, bcrypt, Nodemailer

Database & AI

MongoDB (NoSQL), Mongoose, Aggregation, Atlas Vector Search, MySQL (basics), RAG, Gemini API (LLM + embeddings)

API & Security

Authentication, authorization, CORS, validation, data privacy, error middleware, pagination, filtering

Tools & Integrations

Git, GitHub, Postman, Stripe, Cloudinary, Netlify, Vercel, Render, Redux (working knowledge)

PROFESSIONAL SUMMARY

MERN Stack Developer building secure applications with React, Node.js, Express.js, MongoDB, and REST APIs. Delivered e-commerce, finance, and RAG projects with authentication, payments, pagination, aggregation, and vector search. Brings team leadership, client communication, cross-functional collaboration, and data-driven operations experience.

WORK EXPERIENCE

GUVI GEEK NETWORK PVT. LTD.

Tech Support Intern | Chennai, India

Aug 2023 - Nov 2023

- Provided technical guidance for building and debugging full-stack applications, troubleshooting frontend and backend issues through a ticket-based support system, and recommending solutions that improved learners' application performance and debugging effectiveness.

FIRSTSOURCE SOLUTIONS LIMITED

Analyst | Bengaluru, India

Apr 2021 - Oct 2022

- Supported three projects for one client, consistently achieving 100% productivity and maintaining a 98% quality/accuracy score.
- Collaborated with client and internal teams to coordinate requirements, priorities, and issue resolution through Daily Touch Base and Monthly Calibration calls, including on-demand weekend support.

KNOWLEDGE SPLICE SERVICES PVT. LTD.

Assistant Team Lead | Bengaluru, India

Jul 2019 - Apr 2021

- Led a 12-member team, directly trained and supported 11 employees, and consistently met the 97% quality threshold through performance tracking and coaching.
- Helped launch and stabilize a pilot project; presented weekly performance, led meetings and one-on-ones, and prepared staffing rosters.

SELECTED PROJECTS

Trendz - E-commerce Platform

React | Express | MongoDB | Stripe | Cloudinary

LIVE: trendz-fe.netlify.app

- Built customer and admin workflows with JWT role authorization, product CRUD, Cloudinary image lifecycle management, stock checks, cart handling, and order persistence.
- Integrated Stripe Checkout and modeled payment outcomes while keeping failed-payment and cart states explicit for a reliable user flow.

AskMyDoc - RAG Document Assistant

React | Node.js | Gemini API (LLM + Embeddings) | Atlas Vector Search

LIVE: askmydoc-rag.netlify.app

- Built a PDF-grounded assistant using Gemini API as the LLM and embeddings provider, with MongoDB Atlas Vector Search for document retrieval.
- Implemented chunking, metadata, top-K retrieval, reranking, confidence thresholds, citations, retrieval evaluation, and rejection of unrelated questions.

Money Metrics - Personal Finance Dashboard

React | Express | MongoDB (NoSQL) | JWT Cookies | Charts

LIVE: moneymetrics-fe.netlify.app

- Built user-scoped transaction CRUD with search, type/category/date filters, sorting, server-side pagination, aggregation summaries, charts, and responsive states.
- Implemented HTTP-only cookie authentication, OTP password reset, protected APIs, and user-scoped access controls supporting data privacy.

ACHIEVEMENTS

2020 – Double promotion to Assistant Team Lead, Knowledge Splice

2021 – Best Supporting Staff Award, Firstsource

2022 – Participated in two web-development hackathons
